VET-TEDD

Teachers Embracing Digital Disruption

Developing Digital Competence in VET

EMBRACING DIGITAL DISRUPTION /

VET-TEDD is an EU funded project providing free to use & accessible resources that support the development of digital competences in Vocational Education Teachers.

VET (Vocational Education and Training) **Teachers Embracing Digital Disruption** (VET-TEDD) is a 30 month project, funded by Erasmus Plus.

Vocational Education & Training (VET) institutions across Europe face a range of challenges including:

- **Enhancing the learning experience of students;**
- **Strengthening support for teachers;**
- **Differentiating teaching methods according to students' learning needs;**
- **Adapting young people's skills to labour market needs.**

LEARN NEW SKILLS THAT WILL HELP YOU INNOVATE YOUR LEARNING APPROACH AND CREATE NEW ENGAGING LEARNING CONTENT.

PROJECT OUTPUTS /

The project will develop:

A Self-Assessment Tool (SAT) which will analyse skills in identifying, designing, configuring and implementing technological and pedagogical tools;

6 Blended Learning programmes; covering: Digital Identity, Security & Data Handling, Alternative Environments, Digital Education Methodologies, Digital Education Models and Media Rich Content

Best Practice Case Studies showcasing the use of Technology Enhanced Learning and digital pedagogy.

The project aims to upskill, build capacity and develop future solutions around digital learning tools, to transform educational experiences in VET.

Embrace the digital disruption & find out more at www.vet-tedd.eu

HOW CAN I GET INVOLVED /

1. Transform the way you teach?

One of the biggest challenges when developing new ways of working is having the confidence in your own ability, but it's also about understanding your own strengths and capabilities.

Visit www.vet-tedd.eu to register for our self-assessment tool to understand your competence in identifying and implementing digital tools in your learning.

2. Improve your skills?

Read more about our micro learning programmes at our website and gain new knowledge and skills for free!

3. Share your best practice

We are sourcing and collating a series of case studies showcasing best practice when it comes to embedding digital tools into learning.

Do you have a case study to share? Contact us at https://vet-tedd.eu/en/contact/
